Municipal Budget and Reporting Regulations gazette No 32141

BACKGROUND

Section 71: Monthly Budget Statements

In terms of Section 71 The accounting officer of a municipality must by no later than 10 working days after the end of each month submit to the mayor of the municipality and the relevant provincial treasury a statement in the prescribed format on the state of the municipality's budget reflecting the following particulars for that month and for the financial year up to the end of that month:

- (a) Actual revenue, per revenue source.
- (b) Actual borrowings.

- (c) Actual expenditure, per vote;
- (d) Actual capital expenditure, per vote;
- (e) the amount of any allocations received;
- (f) Actual expenditure on those allocations,

Municipal budget and reporting regulations (MBRR) - Section 28 to 30

Section (28) states that the monthly budget statement of a municipality must be in the format specified in Schedule C and include all the required tables, charts and explanatory information, considering any guidelines issued by the Minister in terms of section 168 (1) of the Act. Tabling of monthly budget statements

Section (29) states that the mayor must table in the municipal council a monthly budget statement submitted to the mayor in terms of section 71 (1) of the Act. If the Mayor does so, the monthly budget statement must be accompanied by a mayor's report in a format set out in Schedule C.

Publication of monthly budget statements

Section (30) sub section (1) states that the monthly budget statement of a municipality must be placed on the municipality's website.

Services, rates and taxes

- The services offered by the municipality to its Debtors which represent exchange transactions such as, refuse removal, leased properties building plan fees etc whilst the none exchange transactions are represented by rates, traffic fines and others. The collection on rates for the month of August is **R284 951.36** for all categories and is less than the monthly projections of **R1,2** million and for refuse a collection is less than the monthly projections of **R244** thousands of **R39 092.73**
- The department engaged its debtors in all categories to reduce their historic debt by making monthly payment arrangements. Honouring of arranged payments is a challenge
- The institution received the following grants from the transferring departments in the month of August: Disaster Relief Grant **R5 127 000**, Finance Management Grant (FMG) **R2 600 000**, Expanded Public Works Programme (EPWP) **R419 000** it must be noted that the institution is solely depending on the grants, see the table above which shows over collection and those with under collection are flagged in red.
- VAT refund of R2 018 646.86 was received in the month of August.
- All debt is being collected internally by revenue section for residential debtors, businesses and government departments.
- > The institution did not receive any amount from the department of Provincial Public Works and the department of National Public Works in the month of August.
- ➤ The institution has one employee owing municipal rates which is not allowed in terms of Schedule 2 (10) of the code of conduct of municipal staff members and the amount owed increased to **R112 546.52** after billing of rates. An arrangement letter to be served to the employee.

- ➤ The institution collected an amount of **R1,100.00** on traffic fines for August 2024 and it is advisable that the end user department must have a plan on how to improve on the collection as it was noted in the previous FY that collection was unsatisfactory.
- ➤ Learner's licences and vehicle registration collected an amount of **R56 960.72 and R0.00 f**or vehicle registration.
- > The institution received an amount of R1 223 035.45 from interest on investments accounts.
- > All other revenue collection items are detailed in the table above.

2.3 Grants Performance

The municipality's capital expenditure is grant funded. The municipality is expected to have spent 16% of the conditional grant allocation by end of August which is M02 and has spent more than 16 % sitting at 18%.

Financial Position

The **statement of financial position** lists all the Council's Current and Non-current Assets and liabilities together with their financial values representing the economic resources of the municipality. Table C6 is meant to improve the stakeholder's understanding and management of budget and the impact of actual expenditure in comparison to the budget implications on the financial position.

Current Assets reflect the financial assets that have cash value and are owned by Council and all other assets that are expected to provide financial benefit to Council within one financial year. The financial benefit is

through the rendering of services to the community and revenue generation through refuse removal services and other revenue generating activities.

Largest current assets are Cash and cash equivalent at R218 340 700.00. Trade and other receivables from non-exchange transactions R33 027 189.00. Call investments deposits interest was at R930 413.04.00 at the end of the month. Current assets are highly liquid, in that they can easily be converted to cash when required to meet short term obligations which are paying salaries, allowances and suppliers for goods and services.

The largest **current liabilities** are trade and other payables from exchange and non-exchange transactions R45 102 351.00

The **current ratio** of the municipality is currently sitting at 2:5 which indicates a healthy financial position, as the municipality's current assets are greater than current liabilities. The municipality is thus able to pay its employees and creditors on a monthly basis. However, attention should be given to the **collection rate** as there are long outstanding balances owed by service consumers, which are sitting at R68 036 738.00 and bulk of those are domestic consumers.

The consumer deposits balance of R61 000.00 as reflected in the Statement of Financial Position, is only relating to consumer accounts that were opened with the municipality since the beginning of 2022/23 financial year and as such it is grossly understated due to balances that were not transferred.

Non-Current Assets are resources with a cash value which another party has made a legal commitment to hand over to Council over a period exceeding one financial year.

The property, plant and equipment item remain the most material resource on the statement of financial position at R306 476 021.00 at Carrying value.

Infrastructure assets form 63,74% of the total asset register and are mainly required to generate revenue and are crucial in-service delivery for the municipality. It is high time that the municipality prioritise repairs and maintenance of the existing infrastructure assets to improve the service delivery capacity of the assets since the municipality is faced with ageing infrastructure. If planned and costed maintenance is not done, the municipality might be faced with reserve backlog due to ageing infrastructure.

Non-Current liabilities are legal commitments from other parties acquired to enhance service delivery. **Provisions** are the largest non-current liability at R10 516 010.00. These are **employee benefit obligations** which are based upon actuarial valuations for all the municipality's defined benefit pension plans and postemployment medical benefits.

The statement of financial position is currently showing the equity of the municipality as R712 300 513.00 as at end of the month, most in accumulated surplus and this equity is not fully funded. Most of the equity is held under fixed assets therefore it is a small portion that can be affected by inflation fluctuations.

Financial Performance

The **statement of financial performance** is used to measure performance of the institution and also monitor the cash flow projections in comparison with actual expenditure and revenue for a specific period. This statement summarizes the revenue realised and expenditure incurred by the municipality on both cash and accrual bases.

The table below shows an analysis of Operating and Capital revenue and expenditure against budget. During the month ending 31 August 2024, the Municipality had an operating deficit of R16 550 239.00 as at end of August 2024. The total operating expenditure actual for the month is R20 621 949.00 is less than the actual total revenue of R4 071 710.00 as it shows a deficit of R16 550 239.00.

The following **revenue streams** were budgeted for in 2024/2025 financial year Property rate is R15 000 000.00 million and Refuse revenue R2 937 200.00. Actual figures for the 2nd month of 2024/25 are as follows: Property rates billing is R15 230 214.00 and Refuse revenue R100 192.00 with Property rates having positive variance at 509% and services charges having negative variance of 64% respectively. Billing has been done in the beginning of the financial year for property rates, hence we have a huge percentage.

Property rates are billed in the beginning of the new financial year for the whole year and Refuse charges monthly.

Government: The debtors are up to date with current debts, but the challenge is with the old debt from National public works which engagements are being done by both institutions.

The cumulative total billing for the whole year is R15 230 214.00.

For the 2nd month of 2024/25, billing has been done in the beginning of the financial year for property rates and monthly for Refuse charges. The municipal property rates policy states that the municipality bills in advance its customers in July and the bill are payable in 12 equal instalments. The municipality must implement the revenue enhancement strategy to improve the revenue base and to ensure long term financial sustainability.

The interest from current and non-current assets is however sitting at R930 413.00 for this month.

Total transfers and subsidies operational are at R2 626 242.00 in the month of August. The municipality managed to generate other revenue of R414 863.00 for the month, this comprises of revenue realized from selling of good and rendering services, rental from fixed assets, licence and permits and operational revenue.

The **expenditure incurred** as at 2nd month of 2024/2025 was as follows: spending on employee related costs at R9 479 443.00 and remuneration of councillors is R1 101 043.00 for the month of August.

Depreciation and asset impairment is budgeted at R68 262 541.00 for the year. In the 1st month no depreciation and asset impairment had not been processed on the system, manually its amounting to R37 802 679.00. The monthly depreciation calculations will

be performed once the asset management module is fully installed and integrated with the financial accounting system. In this regard, the monthly section 71 reports are understated by the depreciation amounts not being charged as the depreciation is supposed to be expensed monthly. Debt impairment provision of R146 860.00 and is also based on budgeted figures and this shall be calculated at year end.

Contracted services are currently under spending sitting at R4 381 630.00 with a positive variance of 149% resulting from budget alignment to mSCOA requirements that is being addressed and expenditure that is sitting on commitments. Also, implementation of cost containment measures. Transfers and grants were R0.00 currently with a year-to-date positive variance of 100%.

Other expenditure incurred R9 008 976.00 for August 2024.

Cash flow Statement

The table below highlights the cash flow position of the municipality for the first month of 2024/2025. The year-to-date cash flow statement of the municipality depicts that the municipality has a favourable cash position.

The cash and cash equivalents to date show positive cash outlay of the municipality. This is however because of both conditional grants and equitable share paid in July 2024. This situation is however not sustainable if the revenue collection is not improved.

(Below is Schedule C_table:C7 for Cash Flow)
